

Fall FISWG/NCMS Virtual Training Event

October 28, 2020

- 8:15-8:30 Log into the NCMS link for the event.
- 8:30-8:45 Opening Remarks- Rob Gerardi, Chairman
Special Thank you to Mr. Stephen Abounader, Chairman (Retired)
- 8:45-9:45 **Cyber Security Overview (1 CEU)**
Organizations are facing increased threats from attackers looking to make money through business disruption and extortion. Threat actors are effectively coercing victims across the globe to pay 6 to 8 figure extortion demands by:
-Stealing materially sensitive data from organizations and threatening to publish the data if not paid.
-Disrupting business operations by encrypting data on business critical systems.
-Leveraging media organizations to coerce victims into paying extortion demands.
- Mandiant will cover the following topics in this session:*
-Learn about modern ransomware and extortion trends and attacker behaviors observed on the frontlines Hear executive and board-level considerations of engaging threat actors and negotiating extortion demands
-Understand how threat intelligence, hunting, and response provides the decision support and detection needed to outmaneuver ransomware actors. Implement effective mitigation strategies to mitigate the risk and impact of disruptive attackers
Mr. Charles Carmakal, Senior VP and Dr. Lawrence Taub, Senior Manager-FireEye Mandiant
- 9:45-10:00 Break
- 10:00-11:00 **Vetting Risk Operations Center (VROC) Overview(1 CEU)**
An overview of the latest and greatest with the adjudication process.
Mr. Robert Manson, Division Chief and Mr. Mark Sioson, Branch Chief-VROC, DCSA
